JASON DANIEL LUTZ

AVAILABILITY IS NEGOTIABLE

SUMMARY

I offer you my experience, knowledge, and service in exchange for fair compensation, an engaging environment alongside a supportive team. I bring many tangible and intangible skills and talents to the team that will absolutely be an asset to your business. These attributes have been honed by 12+ years of work experience, the self-driven pursuit of knowledge, as well as the humbling experiences of endeavoring through developing and patenting my own invention as I launched my Start-Up, Honey Forms LLC. Over the years I've been honored to have worked alongside industry professionals and am grateful to have had such challenging experiences that have made me who I am today.

SKILLS & EXPERIENCE

Product Development	Inspection Planning, Precision Measuring	Creating Training Tools and Materials	Fabrication : Plexiglass, Wood, Epoxy, Silicone Pours
Public Speaking	Managing, Management Support, Coaching	Thriving Under Pressure	CNC Machining
Customer Service and Sales	Microsoft Office Suite, iWork apps	Problem Solving	Vectric VCarve Pro

EMPLOYMENT HISTORY

CNC Machinist, Production Manager : Tensitron, Longmont, CO - 1/21 - 6/21

- I managed production, performed inspection for parts throughout the manufacturing stream, maintained the machines by cleaning / changing; way oil, coolant, chip removal, coolant reservoirs and managed inventory / ordered tooling/stock. I ran three CNC machines at once to meet production goals and held daily update meetings with the CEO. Im proficient with the Hass and Hurco Interfaces as well as Manual machines.

Floor Manager, Budtender : The Farm Co, Boulder, CO - 05/20 - 12/20

- As a floor Manager at The Farm, I was responsible for overseeing compliance in daily operations and delegating tasks to keep the store clean, compliant and organized; did nightly and monthly inventory; helped revised and created management and training materials; and served guests.

Bartender : Tracks Night Club / EXDO, Denver, CO - 12/19 - Present

- As a Bartender and Event Staff I checked IDs; made drinks; and transacted guests in a fast paced, high volume atmosphere. We were required to dress in all black dress attire or themed depending on the event.

Inventor, CNC Machinist : Honey Forms LLC, Denver, CO - 04/16 - 03/20

- I founded Honey Forms LLC to pursue my invention which benefits Medical Cannabis patients. I gave a Keynote Presentation on my research and spoke on a panel to discuss product innovation in the cannabis Industry at the [CBD.io](https://www.cbd.io) Expo and traveled to numerous conventions coast to coast. To prototype my invention, I programmed, operated and maintained a Shop Bot CNC Mill, and hand mixed silicone pours. Additionally, I fabricated and custom merchandising displays out of various materials for local companies. I have a product portfolio upon request.

Server, Manager : Three Leaf Concepts, Boulder, CO - 06/15 - 05/17

- From Server, to Bartender, to FOH Manger, my experiences at numerous locations and in numerous positions honed my skills in providing exceptional customer service in a dynamic environment. I understand latent and tangible elements of operations and customer service and how these affect the over all customer experience, as well as how to successfully manage myself and others under pressure.

EDUCATION

Front Range Community College, Longmont, Colorado - May, 2021

- Trade Certificate, Intermediate Machining

Coral Glades High School, Coral Springs, Florida - July, 2010

- Highschool Diploma, GPA 2.7
